

PRESS RELEASE

janusNET and ISEC7 Group enter a strategic partnership

The mobility experts will provide mobile and office based email and document classification solutions.

Hamburg/Sydney, May 2, 2016 – janusNET Pty Ltd, developer of mobile and office based email and document classification solutions and ISEC7 Group, leading provider of mobile enterprise solutions, have announced their strategic partnership. Together, the companies will offer enterprises mobile solutions with janusGATE technology. These solutions will boost innovation and productivity to the ever increasing mobile and BYOD business requirements, while mitigating the risk of data leakage or a security exposure.

Marco Gocht, CEO ISEC7 Group, explains: “We are excited to be partnering with janusNET. Just like ISEC7, janusNET has many years of experience developing advanced and innovative solutions. This partnership will bring a strong solution portfolio to meet the increasing demand for secure mobile solutions in the German and European markets.” Alan Schaverien, Commercial Operations Director, janusNET Pty Limited, says “We strive in developing innovative solutions that are easy to deploy, simple to use and complement existing IT infrastructure. We are proud to partner with companies of the same culture. With ISEC7’s expertise, experience and award winning solutions, we see the huge potential in our symbiotic partnership.”

janusGATE technologies allow the control of messages for enterprise Microsoft Exchange users. A popular feature is preventing the delivery of sensitive corporate information onto corporate and BYO devices. In case a device is lost or stolen, the sensitive material stays safely within the corporate network. ISEC7’s large base of enterprise customers can benefit from their profound knowledge and mobility experience when integrating janusGATE within their mobile solutions’ infrastructure.

About ISEC7 Group AG

The ISEC7 Group (www.isec7.com) is a global provider of mobile business services and software solutions. The company was one of the first movers in mobilising company and business processes. Today, ISEC7 has numerous renowned companies and governmental organisations as committed customers.

The company continually invests in the evaluation and development of new technologies. ISEC7 solutions, such as ISEC7 EMM Suite, ISEC7 Mobile Exchange Delegate, ISEC7 Mobility *for SAP* and ISEC7 Mobility Cloud have proven to be ground-breaking in the mobility sector.

The ISEC7 EMM Suite, a comprehensive globally applicable MDM solution, has been presented as the “Most Innovative Enterprise Application”. ISEC7 Mobility *for SAP* allows access to SAP backend without the need for additional middleware. The ISEC7 solution ‘Mobile Exchange Delegate’ ensures mobile access to Microsoft Outlook calendar, email and contacts from third parties via BlackBerry or iPhone. ISEC7 Mobility Cloud is an

innovative and ground-breaking Managed Service for the provision of customised Enterprise Mobility infrastructures based on EMM solutions like the ISEC7 EMM Suite, BlackBerry Enterprise Service 12, MobileIron, Samsung EMM, Microsoft EMS, Good or Airwatch.

ISEC7 was founded in Hamburg/Germany in 2003. The company operates globally with offices in Germany, UK, Spain, Switzerland, USA and Australia.

About janusNET

janusNET (www.janusnet.com) is a pioneer and innovator in data classification software and message handling which complements existing technology and infrastructure. janusNET provides classification and protection of files created in Microsoft environments, from Office documents, to pdfs and other files types, emails in Outlook, Outlook Web Access as well as award winning janusGATE Mobile - a pragmatic mobile security solution.

janusNET's founders were chosen to co-author the "Protective Markings for Internet E-mail Messages", published by the Australian Government Information Management Office (AGIMO). This standard enabled Australian Government Agencies to use a common format for email security classifications, greatly simplifying protection of their information, whether shared between or outside government.

janusNET solutions are used worldwide for government and private enterprise. With over 400,000+ licensed users, 10 Department of State and 20 Law enforcement agencies use janusNET products to protect their information. Our customers have complex, connected enterprises with thousands of employees. Our customers when referring to our software will tell you - "it just works".

janusNET was incorporated in 2004 and is headquartered in Sydney, Australia with offices in the UK.
