

PRESS RELEASE

ISEC7 Group is the leading service Provider for Unified Endpoint Management

The EMM expert from Hamburg on top position in the Crisp Research Comparison of Enterprise Mobility Providers and Service Providers.

Hamburg, November 2, 2016 – The ISEC7 Group, enterprise mobility expert from Hamburg, has been named as one of the best service providers for Unified Endpoint Management (UEM) according to Crisp Research AG, an independent IT research and consulting company. Within the recent report “Crisp Vendor Universe, Enterprise Mobility Provider and Service Provider”, the ISEC7 Group is positioned as an accelerator in its market combining partner solutions with its own applications. Crisp Research has analyzed the two main categories “Vendor Performance” and “Service/Product Value Creation”. Beside others features, the strategic focus of the provider in its market environment, its strategy and the number of partners as well as their cooperation were considered. Also, the product and range of services has been evaluated – from the spectrum of usability of the product.

Carlo Velten, CEO Crisp Research AG, says: “Developing of mobile and digital workplaces and business models are the most important disciplines on the way to a digital connected organization. The ISEC7 Group closes the gap between solid Unified Endpoint Management and realization of individual EMM solutions, which are essential for many customers in a mobile world that becomes more and more complex.”

“It makes us very proud to be listed by Crisp Research as one of the leading service providers for Unified Endpoint Management”, says Marco Gocht, CEO ISEC7 Group. “This placement is an important confirmation of our professional services and innovative software solutions. We would like to thank our costumers for their confidence and our staff for their dedicated commitment in a highly dynamic market. Furthermore, the award motivates us to further extend our leading position in the market.”

With the access to a wide base technology of partners, the ISEC7 Group takes over the whole development and operation of the Unified Endpoint Management solutions and supports the implementation of comprehensive mobility strategies. With its own software modules, such as the ISEC7 EMM Suite, important value adds like platform independent and web-based hybrid EMM management and monitoring tools can be provided.

With a team of experienced analysts, consultants and software architects, the Crisp Research identifies and evaluates the relevance and disruptive force of digital technologies as well as its providers. The “Crisp Vendor Universes” supports companies in selecting technologies and providers with their clear estimation of strengths and weaknesses. A transparent methodology, independent research and particular implementation skills are the basis for comparing providers and products. About ISEC7 Group

The ISEC7 Group (www.isec7.com) is a global provider of mobile business services and software solutions. The company was one of the first movers in mobilising company and business processes. Today, ISEC7 has numerous renowned companies and governmental organisations as committed customers. The company continually invests in the evaluation and development of new technologies. ISEC7 solutions, such as ISEC7 EMM Suite, ISEC7 Mobile Exchange Delegate, ISEC7 Mobility *for SAP* and ISEC7 Mobility Cloud have proven to be ground-breaking in the mobility sector.

The ISEC7 EMM Suite, a comprehensive globally applicable MDM solution, has been presented as the “Most Innovative Enterprise Application”. ISEC7 Mobility *for SAP* allows access to SAP backend without the need for additional middleware. The solution ‘ISEC7 Mobile Exchange Delegate’ ensures mobile access to Microsoft Outlook calendar, email and contacts from third parties via BlackBerry, Android or iPhone. ISEC7 Mobility Cloud is an innovative and ground-breaking Managed Service for the provision of customised Enterprise Mobility infrastructures based on EMM solutions like the ISEC7 EMM Suite, BlackBerry Enterprise Service 12, Good, MobileIron, Samsung EMM, Microsoft EMS or Airwatch.

ISEC7 was founded in Hamburg/Germany in 2003. The company operates globally with offices in Germany, UK, Spain, Switzerland, USA and Australia.

About Crisp Research AG

The Crisp Research AG is an independent IT research and consulting company. With a team of experienced analysts, consultants and software developers, Crisp Research evaluates recent and future technological and market trends. Crisp Research supports companies in the digital transformation of their IT and business processes. Crisp Research was founded by Steve Janata and Dr. Carlo Velten in 2013 and focuses its research and consulting services on “emerging technologies” like cloud, analytics or digital marketing and their strategic and operative implications for CIOs and business decision makers in enterprises.
