

ISEC7 Mobile Exchange Delegate

Mobile access to authorised Microsoft® Exchange Mailboxes and Public Folders

The Challenge

How to work fast and easy on your team's and supervisor's e-mails and schedules?
 How to access public folders on the go?
 How to respond to e-mails received in a Shared Mailbox?

The Solution

ISEC7 Mobile Exchange Delegate enables you to assist colleagues, supervisors or a team member with the according authorisation to

- Respond to your supervisor's e-mails
- Access the communications of Shared Mailboxes or Public Folders
- Confirm and edit appointments

ISEC7 Mobile Exchange Delegate allows mobile access to Microsoft® Exchange

- E-mails
- Calendars
- Contacts from colleagues and team members

Thereby, the internal processes are optimised while you are absent!

Set up a recurring appointment on behalf of your colleagues, change participants, or coordinate the e-mail communications including filing and mail tracking like flags and prioritisation. Search for information or contacts from your colleagues' address books in public folders. In short: With *ISEC7 Mobile Exchange Delegate* you will work in the same way as with Microsoft® Outlook – on your mobile.

Your Advantages

- Accelerated business processes through faster editing of e-mails and schedules by assistants or teams
- User friendly scenarios through the integration of multiple Microsoft® Exchange accounts (example: Shared Calendars for assistants, drivers, personal protection)
- Highly secure solution – no sharing of passwords for mailboxes is necessary

Features

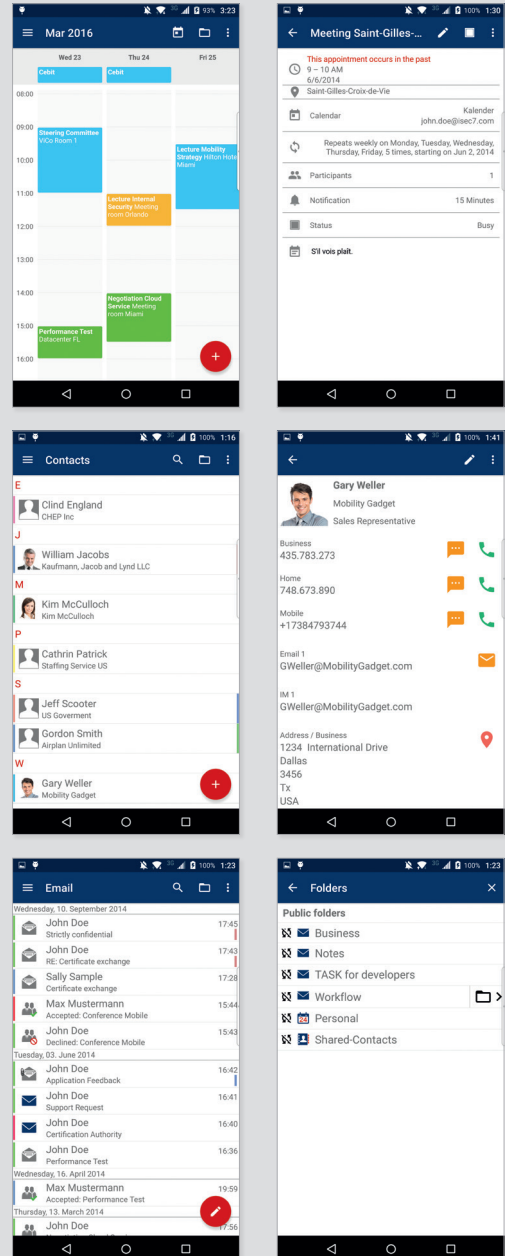

- Mobile access via smartphone and tablet to:
 - E-mail mailboxes of colleagues (Delegate functionality)
 - Shared and team mailboxes
 - Public folders of the Microsoft® Exchange servers
- Access to exchange-integrated voice mail features
- Access to the Microsoft® Exchange archive¹
- Integration into leading EMM container solutions
 - Good Dynamics™⁽¹⁾
 - Citrix® Worx
 - AirWatch®
 - MobileIron® AppConnect
- Automatic installation and configuration (no IT-administration required)

¹ for iOS® and Android™

Technical Requirements

- Native App – no middleware necessary
- Microsoft® Exchange 2007 or higher
- Microsoft® Office 365
