- Mobility for SAP Inspection & Service

ISEC7® Mobility for SAP Inspection and Service

ISEC7 Mobility for SAP enables mobile access to service orders and notifications for service technicians. Confirmation of material, time and status can be done offline and gets updated directly in the ERP system when a network connection is available. This replaces costly and error-prone paper based processes. Additionally the efficiency of service processes is increased by the overview of all relevant data and the history of all service orders for an equipment. Mobility for SAP Inspection & Service is a powerful but lean software solution, where customer specific enhancements are simply done with existing ABAP know-how.

Features

- Offline available service orders and notifications
- Offline confirmation of time, material, status, photos and other relevant data
- Data transfer during the next online connection
- Online check of material availability
- Documentation of damages and repairs with photos and GPS coordinates
- Handling of checklists

Try it!

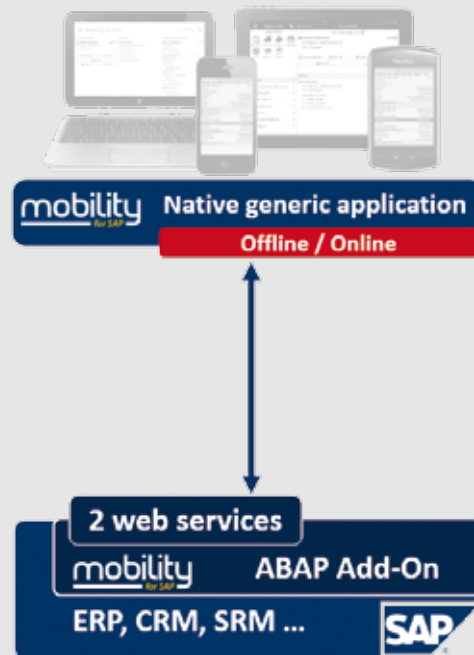

Make a Test Drive in your system!
Install ISEC7 Mobility for SAP on your system within one hour.
Learn in a one day workshop the matured concept and the development.

Highlights

- Offline handling of service orders and their confirmations
- Online access to real-time data such as material availability or pricing
- Direct connection between smartphones and tablets and SAP-systems without middleware or gateway
- Matured enhancement concept for additional data fields or tables
- Pure ABAP customizing and development – no development on mobile device and no HTML5
- Secure connection via VPN, reverse proxy or all market leading secure container solutions, such as GOOD® Dynamics, MobileIron AppConnect, BlackBerry Secure Work Space and others
- Integrated business card scanner, GPS, Maps, Camera, Barcode, RFID and NFC
- Supports Single Sign-on and X.509 certificates
- Native Application with intuitive and user friendly interface

Benefit

- Value for business units
 - › A mobile solution tailored to individual needs
 - › Adaptable to backend enhancements
 - › Shortens processes and provides mobile access to SAP data
 - › Budget friendly – low TCO
- Value for IT
 - › Mobile solution without additional investment in hardware and skills
 - › Few own resources needed
 - › Installation in a few hours and trouble-free operation
- Value for developers
 - › Mobilizing processes with existing ABAP skills
 - › Development in daily used ABAP environment after a three day individual workshop
 - › No skills needed for mobile app development on different operation systems
 - › No skills needed for HTML5, CSS, JavaScript, JQuery...
